EDELRID JAY and JAYNE: Vertical All-Rounders

Versatile climbing harnesses with outstanding wear comfort

Tried and tested, revised, and ultra-comfortable—the JAY and JAYNE are popular all-round harnesses from the EDELRID collection. The fourth-generation versions feature sophisticated updates for wear, hanging, and even standing comfort that is more personalized than ever.

The JAY and JAYNE are designed for versatile use. Whether in the gym or at the crag, on a via ferrata or during alpine adventures, these climbing harnesses have been popular choices for years and now come equipped with several enhanced features from the 2025 season that ensure outstanding wear comfort and simple handling. The new butterfly shape of the waist belt optimally distributes loads and enhances hanging comfort. The Center Fit construction enables the hip padding to be moved and thus perfectly aligned with the central ring. The soft, smooth design of the two parallel tie-in points together with the enlarged upper tie-in point enables simpler tie-ins. The enlarged central ring furthermore provides enhanced comfort when standing and belaying. The waist belt and leg loop straps become wider as the harnesses increase in size so as to offer the optimum

fit in all versions. The JAY is particularly ideal for climbers whose waist and hips are of a similar size. The JAYNE is better for those whose waist is narrower than their hips. Its leg loops have been optimized in relation to the waist belt for this anatomical form and its leg loop bridges have been lengthened slightly. Both harnesses are still certified as bluesign® products, highlighting the Allgäu company's consistent commitment to preserving our environment.

Technical details

- Butterfly shape for enhanced hanging comfort and optimum load distribution
- Center Fit construction: movable padding at the hips for optimally adjusting the harness and centrally positioning the hip padding
- Slide Block buckles on the waist belt and leg loops can be fully opened to make the harness easier to put on when wearing skis or crampons
- The waist belt and leg loops become wider as the harnesses increase in size
- Large central ring made from polyamide for outstanding comfort when standing and belaying
- Parallel tie-in points on the hip and leg loop bridges with textile abrasion protection made from a mixture of HMPE and polyamide
- Red wear indicator in the load-bearing straps on the waist belt and leg loops, as well as in the central ring
- Five gear loops, two attachment options for ice screw clips, and a chalk bag loop on the back
- bluesign® products
- Sizes: S–XL (JAY), XS–XL (JAYNE)
- Weight: 410 (M, JAY), 407 (M, JAYNE)

About EDELRID:

Since its establishment in 1863, EDELRID has developed into a leading manufacturer of personal protective equipment (PPE), especially ropes and climbing equipment. EDELRID products are developed for mountaineering and climbing. Furthermore, EDELRID climbing equipment is used for professional purposes, for example for work safety, industrial climbing, tree care, mountain rescues, and rescues from heights. The company is particularly characterized by outstanding innovation and its focus on sustainability. EDELRID specializes in the development and production of ropes, and brought the first bluesign® certified ropes to the market. All product development activities take place at the head office in the German town of Isny im Allgäu, where 60 percent of all products (including 100 percent of ropes) are produced. This guarantees not only exceptional quality and functionality, but also ongoing innovation. The renowned climbing shoe brand Red Chili has been part of EDELRID's product portfolio since 2017. Since 2022, the EDELRID Group has also included avalanche backpack manufacturer ABS Sports + Protection GmbH & Co. KG.
