

## Description Item Year of manufacture/Marking/Batch numbers

With the RADIALIS PRO, the marking is in the pocket behind the labeling field, on the left of the hip belt pad.

The year and month of manufacture can be found on the back of the manufacturer fabric tag. **Products with a manufacturing date of 2019 09 and earlier are not affected. Products as of the 2019 10 date are affected.**

For **TREECORE belts** do not refer to the date of manufacture of the belt, but to the date of manufacture of the SLIDING D-KIT. The identification of the SLIDING D-KIT is located in the loop of the grey-green 20mm strap.

For the CORE harnesses the label can be found in the pocket on the back of the right leg loop.
